

Three YSU students attended a “Conference on Undergraduate Research in Mathematics” at Penn State University, November 9-10, 2007. The following three YSU students gave 15 minute oral presentation on their research:

<u>Student</u>	<u>Title of Presentation</u>
Tyler Drombosky	Effective Condition Number
Jared Ruiz	Building on Babel
Doug Wajda	Differential Equations of Freefall and Skydiving

Over one hundred people from across the country attended this meeting, and 40 undergraduate students presented their research. Invited talks were given by George Andrews (Penn State University) and Frank Morgan (Williams College).
